

ANGELO JOHANN R. PARAS

Front-End Developer | Web Developer

Bifan, Laguna, Philippines | +63 991 713 9459 | johannromblon123123@gmail.com | <https://portfolio-ko-delta.vercel.app/>

PROFESSIONAL SUMMARY

Graduate of Bachelor in Information and Technology and front-end developer with hands-on experience building responsive web applications, internal dashboards, and multi-system portals. Skilled in React.js, JavaScript, Tailwind CSS, HTML, and CSS, with experience supporting authentication flows, Google API integrations, and user-focused interface design. Able to translate requirements into clean, accessible, and practical web experiences for education and company environments.

TECHNICAL SKILLS

- Front-End: React.js, JavaScript, Tailwind CSS, HTML, CSS, React Native, TypeScript
- Backend: Node.js, Django, PHP, Laravel, Ruby on Rails
- Data Management: and Platforms: Git, GitHub, Postman, Docker, Expo, Google APIs, Firebase, Supabase, MySQL, WordPress
- Tools: Git, GitHub, Postman, Docker, Expo, Microsoft Visual Studio
- Soft Skills: Communication, Problem-Solving, Time Management, Attention to Detail

PROJECT EXPERIENCE

Trimex Marketing System

Capstone Project | Trimex Colleges

- Developed responsive front-end interfaces using React.js, JavaScript, Tailwind CSS, HTML, and CSS.
- Supported a cleaner admissions and engagement experience by presenting academic programs and updates in a more organized digital platform.
- Worked with Google APIs and external services to support authentication, data access, and system integrations.
- Contributed to user-facing views connected to analytics features such as predictive enrollment forecasting.

Tech: React.js, JavaScript, Tailwind CSS, HTML, CSS, Google APIs

Clinic Management System

TTI Laguna Philippines Inc.

- Built responsive front-end screens for a web-based clinic management system used for secure staff access and daily clinic workflows.
- Improved login flow usability through clearer form structure, visual hierarchy, and mobile-friendly responsive design.
- Created a cleaner dashboard access experience that helped employees reach clinic functions faster across desktop and mobile devices.

Tech: React.js, JavaScript, Tailwind CSS, HTML, CSS, Authentication UI, Responsive Design

Unified Enterprise Portal

TTI Laguna Philippines Inc.

- Designed front-end interface concepts for a unified portal connecting IT Help Desk, HRGA, and PMMS in one access point.
- Helped create a more structured and professional multi-system login experience for internal company users.
- Focused on responsive layout, cleaner navigation, and consistent visual presentation across portal entry points.

Tech: React.js, Tailwind CSS, HTML, Authentication UI, PHPMyAdmin

Automated Fixed Asset Management System

TTI Laguna Philippines Inc.

- Contributed to both the front end and the database-backed backend using React.js, TypeScript, Tailwind CSS, Node.js, and PostgreSQL. I helped shape the user interface, connect workflow forms to backend services, and support the data structure behind asset and cash request records.

Tech: React TypeScript Tailwind CSS Node.js PostgreSQL
